### Listing of Claims

1-32 (Cancelled).

33. (Currently Amended) A lure comprising:

a lure body;

a hook at least partially embedded in said lure body, said hook comprising:

a hook shank;

a bend portion having a first end and a second end provided in one end of said hook shank;

a hook tip terminating said first end of said bend portion;

a hook eye provided on an opposite end of said hook shank from said bend;

~~a weight comprising a lower weight taper tapered to said hook shank and a top weight taper which terminates closer to said hook eye than to said hook tip;~~

a shank offset bend provided on said hook shank above between said second end of said bend portion top weight taper and below said hook eye;

a shank offset extending from said shank offset bend toward said hook eye;

a shank neck bend extending from said shank offset toward said hook eye; and

a shank neck terminated by said hook eye;

a substantially straight shank portion extending between said shank offset bend and said second end of said bend portion; and

a weight concentrically disposed about said substantially straight shank portion, said weight having a middle portion, a first end and a second end, wherein said weight symmetrically tapers from said middle portion to said first and second ends thereof, respectively;

wherein said hook eye, said shank neck, and said shank neck bend are at least partially embedded in said lure body.
